## ALASKA SEAL MONOPOLY.

New York, April 27.—In the suit brought by the United States against the North American Commercial Company, the United States court today decided in favor of the United States government. The judge, however, that the media vivendi with Great Britain was a breach of the contract with the part of the United States with the North American Commercial Company, and therefore, gave judgment for \$94,087.50, and also said the Commercial Company has a claim against the government of about \$140,000 to be collected through the court of claims. The media vivendi ended in 1894, the effect of the decision will be to entitle the government to the other suit to collect about \$200,000 yearly from the North American Commercial Company for the years 1895 and 1896.

## MR. KNAPP MADE FREE

After Much Pain and Hindrance the American Missionary is at Liberty.

His Way to the Coast Was Paid With Many Turkish Official Obstacles.

Which Were Only Removed When an American Warship Was Telegraphed For.

Constantinople, April 27.—Rev. Geo. P. Knapp, the American missionary, who was expelled from Bitlis by the Turkish authorities without trial on a charge of having incited Armenians to rebellion against Turkish rule, was telegraphed to the United States consul at Alexandretta on Saturday last.

The details of the affair show that there was considerable trouble brewing and that the step was not taken until a United States warship was telegraphed for. It is stated that the missionary had been a prisoner throughout the journey to the coast and that the Vail of Aleppo detained him at that place for five days while making futile efforts to force the American to sign an agreement not to return to Bitlis under any circumstances. Mr. Knapp steadily refused to sign such an agreement on the ground that the charges brought against him were entirely unfounded.

When the Vail saw it was useless to continue his attempts to get Mr. Knapp to sign the agreement mentioned the missionary was allowed to proceed, but was still treated as a prisoner, to Alexandretta.

It had been agreed upon between Mr. John W. Riddle, United States charge d'affaires at Constantinople, and the Turkish government that the American minister upon his arrival at Alexandretta was to be delivered to the United States consul there, and that the latter was to see that Mr. Knapp came to this city for trial before a representative of the United States. But when the missionary reached Alexandretta on April 27th, in spite of the Porte's protestations, the Turkish authorities refused to deliver the prisoner to the United States consul. The latter offered a formal protest against the detention, and the missionary communicated by wire with Mr. Riddle informing the latter that the Turkish officials intended to expel Mr. Knapp from Turkish territory by compelling him to embark on board the steamer sailing for Europe on April 24th.

Thereupon Mr. Riddle made most energetic representations to the Turkish government, demanding that the latter respect its engagements, and in order to give more emphasis to his remarks the charge d'affaires telegraphed to Mr. Knapp, where the United States cruiser Maribhead is at anchor, asking the commander of that vessel to immediately place a cruiser at the disposal of the United States consul at that port. This prompt action, upon the part of Mr. Riddle had a decidedly calming effect upon the Porte, for the latter no longer became aware that the Maribhead had been telegraphed for than before. The vessel was sent from here to Alexandretta for the release of Mr. Knapp.

The American missionary is now free, and will probably, by the advice of the United States representative, come to this city, and offer to have his conduct at Bitlis thoroughly investigated before the United States charge d'affaires. Those who are in a position to know the inside history of the case assert that the charges against Mr. Knapp are groundless.

## AINSWORTH IS BURNED OUT.

The Entire Business Part of the Town Destroyed Last Night.

Nelson, B. C., April 27.—The entire business part of Ainsworth was burnt out last night, the only houses saved being Mrs. Anderson's boarding house and the government office, with two or three residences to the north of it.

## THE UNITED STATES NAVY.

Ship Massachusetts Earns the Contract for a Premium—More Vessels.

Washington, April 27.—The battleship Massachusetts did even better on her official trial trip than at first supposed. Her speed, corrected for tidal currents, was 16.27.9 knots. This means that the contractors earn a premium of \$125,000.

In the senate to-day the naval appropriation bill was taken up. The main features of the bill are the items for four new battleships, the heaviest armor and most powerful ordnance, at a cost of \$3,750,000; three torpedo boats having a speed of 30 knots, to cost \$500,000; and ten torpedo boats to cost \$500,000. These provisions are the same as the house provided for, except that the number of first class torpedo boats as the bill came from the house is reduced from five to three, and the speed increased from 25 to 30 knots.

## ROYAL Baking Powder

has been awarded highest honors at every world's fair where exhibited.

## CRIPPLE CREEK REBUILDING.

Saturday Night's Big Fire Burned Up a Million Dollars.

Cripple Creek, April 27.—Already the work of rebuilding the district burned on Saturday night has begun. At a special meeting of the city council last night, a resolution was passed allowing the erection of temporary buildings within the fire limits, with a provision that they must be removed within sixty days to give place to buildings of stone and brick. This morning, as soon as the debris was sufficiently cool the work of clearing commenced, and before midnight fully twenty buildings were under way. With 8,000 people rendered homeless in a day, lodging houses were in great demand. Fortunately, the weather is remarkably fine, so that sleeping in the open air does not entail any suffering. The best order prevail.

Yesterday telegrams began coming in to the mayor from the various towns of the state offering financial aid. These were turned over to the committee who replied with thanks, but declining the kindly offers. Cripple Creek will take care of her own.

This morning the work of opening the safes, and vaults began. In most cases the contents were found to be intact. The steel lined vaults of the postoffice had to be blown open with dynamite, but all the valuable government property was safe. A vast amount of mail matter, estimated at from 25,000 to 35,000 pieces, was destroyed, as was the furniture of the office. No estimate can be put on the value of the loss of the mail. In six days more Cripple Creek would have had a new postoffice, but this, too, was destroyed. None of the losses are as great as would appear from the burning of so large an area. In most substantially built cities, but the aggregate will not be far from \$1,000,000.

## THE BERMUDA AGAIN

Successful in One, Filibustering Expedition, She Embarks in Another.

How Spanish Prisoners Fare in Cuba—Confined for Two Months in a Small Room.

Jacksonville, Fla., April 27.—The steamship Bermuda arrived in port at six o'clock last evening and anchored mid-stream, directly opposite the Clyde dock. Tugs having a covered-in large in tow, loaded with arms and ammunition, at once put out for the steamer. The large was taken to the far side of the steamer, where it was concealed from the view of the city. The hoisting machinery was at once set to work unloading boxes from the large to the Bermuda. This was completed about 11 o'clock. Six large life boats, capable of holding fifty men each, which arrived a short time ago from New York, were also put aboard the Bermuda. In the meantime the Cubans in the city took about fifty foreign Cubans to the dock, where they were transported in naphtha launches and row boats to the steamer.

Tampa, Fla., April 27.—W. C. Dygert, of Greenwood, Ill., has arrived here from Cuba, where he has just been released from prison. He was confined for two months exactly. Dygert left for Tampa on February 13, and, without setting a passport, went to Havana. On February 28th he was arrested and placed in prison at Guines, the only charge against him being that the Spanish soldiers found an old gun near where he was arrested. The gun was of a very ancient make, and no cartridges are now made to fit it. It was of very large calibre, and given several so-called examinations. Permission to write to his friends or the United States consul was refused. When searched, the soldiers failed to discover \$100 paper money concealed on his person, so that soon after his incarceration, he bribed the guard to report the case to the American consul, paying twenty dollars and promising another eighty to be paid on receipt of information that the case had been reported. On March 20, the consul handed him a piece of a Spanish newspaper from which he learned that the case had been reported. On March 28th, Consul Williams notified him that his release had been requested. On April 25th, he was carried to Havana, taken before a judge at 9 o'clock at night and informed that if he would sign a paper written in Spanish he would be released. He found that the things taken from him were not to be returned, so he refused to sign. Consul Williams came down about 10 o'clock and his release was effected. Dygert says that during the time he was imprisoned he was confined in a room about 18 by 48 feet with thirty-two other prisoners.

## COINS FOR CALIFORNIA.

Another Attempt to Circulate Copper Money on the Coast.

Washington City, April 27.—Secretary Carlisle has issued an order to the Treasurer of the mint at Philadelphia to coin \$20,000 in pennies, nickels and dimes for distribution on the Pacific coast. The object is to introduce these smaller coins in California, and the order was made at the request of the sub-treasurer at San Francisco.

M. Marleuf, late chef and proprietor of the Poodle Dog restaurant in this city, has been secured as chef at the St. Alice, Harrison Hot Springs.

## BOWELL HAS GONE DOWN

And Sir Charles Tupper Will Take the Helm of the Badly Battered Tory Ship.

Sir Mackenzie Formally Tendered His Resignation to Lord Aberdeen To-Day.

And Will Sail for England Next Month—Preparing a Valiant Dictory to Canada.

Ottawa, April 27.—Sir Mackenzie Bowell had his photograph taken this morning with his official uniform on, so as to give it to their excellencies for a group, which is being got up in connection with the recent historical ball in the senate chamber.

At 1 o'clock Sir Mackenzie said goodbye to the privy council department and left for Rideau Hall, where he tendered his resignation of the premiership to Lord Aberdeen, and there was a meeting of the ministers afterwards in the council chamber.

There is supposed to be no doubt but Sir Mackenzie will send for Sir Charles Tupper.

It is rumored that William Smith, deputy minister of marine and fisheries, has been superannuated, and Major Gourdeau, the accountant of the department, promoted to that office. It is also understood that at the same time Joseph Pope, formerly private secretary to Sir John Macdonald, was appointed under secretary of state, while his office of assistant clerk of the Privy Council falls to Mr. J. J. Laidlaw, private secretary to Sir Mackenzie Bowell.

Sir Mackenzie Bowell, Randolph Fleming, C.M.G., and Sir Donald Smith leave for England on May 6, via New York.

The details of the proposed fast Atlantic service were finally arranged in council Saturday. Archibald Langer, who is here, says that the hierarchy will soon issue instructions how to vote on the school question in the approaching elections. Catholics ought to get a pledge from all their candidates that they would give separate schools to Manitoba, as that was what the minority wanted.

F. A. Catellier, under secretary of state, has also been superannuated with Wm. Smith.

Sir Mackenzie Bowell returned from Rideau Hall at 4 o'clock, his resignation having been accepted.

Among other appointments which, it is said, were made on Saturday, but which yet require official confirmation, are the following: John McDonald, ex-member for Pictou, N. S., as commissioner of customs; D. W. Davis, ex-member for Albert, collector of customs for the Yukon district, with headquarters at Cudjoly on the Yukon river; Alex. McKay, retiring member of parliament, inspector of customs for the port of Western Ontario; Alfred Boulton, the present inspector, being assigned to Eastern Canada.

## EXECUTED IN SING SING.

Carl Felsenbaum Pays the Penalty for a Cowardly Murder.

New York, April 27.—Carl Felsenbaum paid the extreme penalty of the law to-day.

The crime for which Carl Felsenbaum, alias Anton Lahn, was executed, was for the murder in New York of Mrs. Julia Hoffman, with whom he boarded. There was apparently no motive for killing, as Felsenbaum had boarded with Mrs. Hoffman scarcely a week when, early on the morning of September 1st, 1894, he entered the room where she and her son, Michael, were sleeping, and stabbed the woman to death. The son, Michael, attempted to defend his mother, but was driven off by the murderer, who tried to escape through a rear window. The shouts of Michael, however, caused Felsenbaum's capture a short distance from the house. During the trial Felsenbaum tried to lay the crime upon one Jacob Weibel, who, according to the murderer's story, went part of the night with him in his room. He claimed that it was while pursuing this man along Sixth street that he was taken into custody.

## SHIPBUILDERS STRIKE.

For an Increase of Wages and an Eight Hour Day.

Chicago, April 27.—About one thousand men employed by the Chicago ship building company struck to-day for an increase of wages. Trouble has been brewing for some time over the question of wages and an eight-hour day, and today's walk-out was the result. The firm employs about 1500 men. It is not thought that other firms will be affected.

## TROOPS THENED THEM OUT.

Washington State National Guards Ordered Off Sand Island.

Astoria, April 27.—The Washington State National Guards, from Seattle, who have been occupying Sand Island since April 4, by order of Governor McMillin, were ordered off at midnight Saturday by United States troops and given 20 minutes to leave. Threats of being placed under arrest. They hastily packed up and left. The island is a government reserve, and the national troops will hereafter patrol the island and prevent trouble.

## THE COUNTRY PAYS FOR IT.

Seasonal Clerks Addressing Conservative Campaign Literature.

Ottawa, April 20.—In the house of commons this afternoon, Mr. Edgar asked whether it was true that in the department of agriculture thirty or thirty-five seasonal clerks are at work addressing Conservative campaign literature?

Mr. Foster answered that the statement was entirely unfounded, that there were twenty or thirty clerks sending out election literature. "I am not aware of one who is doing so," said Mr. Foster.

"I am," put in Casey. "Liberal literature is being sent out," said Foster.

"At our own expense," said McMillen. "Then is it wrong to send out literature?" asked Foster.

"No," answered Gibson. "It is wrong to make the country pay for it." "Then I deny absolutely that the country is paying for it."

"Are ten, or fifteen, or twenty young women sending out literature from the department?" asked Mr. Laurier.

"Some young ladies are doing so," answered Mr. Foster. "We are paying the bills."

"Is a permanent office directing the work?" asked Sir Richard. "No," answered Foster.

Dr. Landerkin attempted to read one of the pamphlets. "They're tried to give it respectability," said he.

"Order," roared the Conservatives. "By putting Sir Donald Smith's picture in it," shouted the doctor, finishing his sentence.

"Orders of the day," said the Speaker, and the house went into committee on Mr. Boyd's Hudson Bay Canal bill.

## A REPORTER'S VERACITY.

Mr. Julian Ralph's Adventure With a Colonist Representative.

Mr. James Walter Smith, in an article in "The London Correspondent" in the Strand Magazine for May, tells a good story about an adventure of Mr. Julian Ralph, the well known correspondent of the New York Journal, Mr. Ralph was sent to the far west by Harper's Weekly, and accompanied by Frederick Remington, the artist, arrived in Victoria, B. C., late at night and immediately went to bed. The next morning they found a report in the Colonist stating that they had come to he west for Frank Leslie's Weekly in order to foment trouble between Canada and the United States in regard to the Behring sea difficulty. Just as they were reading this at the breakfast table a reporter was announced. With a smile he walked in and said:

"Is this Mr. Ralph?"

"Yes."

"See the Colonist this morning?"

Mr. Ralph nodded his head and the reporter continued:

"You got in so late that I did not want to disturb you. So I wrote a few words about your visit. How dear did I come to it?"

"You hit it exactly," said the journalist. "Mr. Remington and I are here for Harper's Weekly, and not for Frank Leslie's. We have come out to study the Pacific Indian, and our intentions are perfectly peaceful."

For a moment the reporter stood silent. Then with a winning smile, he replied: "Oh, then, I wasn't so far out, after all."

## DUTY OF CITIZENS.

Rev. Solomon Cleaver Discusses the Proper Relation of Politics and Religion.

The Principles on Which He Holds Representatives Should be Chosen.

There was a large congregation at the Metropolitan church last evening, and intense interest was manifested in the discourse of the pastor, the Rev. S. Cleaver, on the subject of "Politics," which he discussed fearlessly, declaring that religion and politics are inseparable. The text was taken from Proverbs xiv. 34. "Righteousness exalteth a nation, but sin is a reproach to any people." He said he supposed there were some present who would object to the consideration of the subject Politics, on the ground that he had no business to discuss politics in the pulpit. Surely these people would not tell him that the subject of politics was so pure that it could not be spoken of from the pulpit, or was it so rotten as to be un-

mentionable? He did not announce the subject as a sensational one, but desired to speak to his own congregation, kindly, as he thought he had a perfect right to do, and quietly, before the "turn of its approaching conflict." First let us find out what politics is. According to Webster it is the science of government, and it was of the government of this country that he desired to speak. He did not wish to speak of it from an economical standpoint or from the thousand and one points it is generally discussed from; but as a Bible subject, and from that standpoint only. There is, he said, a growing tendency to crowd religion out of politics, and this seemed to be to keep religion as far away as possible, and God knows it is far enough away already. When God arranged matters it was very different. He had religion and politics very closely allied, and it was very noticeable throughout the Bible record that the men who made most progress in politics and were most prominent in it were also most prominent in prayer. When God wanted a man to go down to Egypt and deliver Israel from servitude he chose Moses, the just and God-fearing man, to accomplish his work. When he wanted a ruler in Babylon he chose Daniel, who prayed fearlessly with opened windows in spite of decrees to the contrary. We are not in the habit of going to prayer meeting to meet our politicians; that is about the last place one would expect to find them. What's the matter? Are we drifting away from the old landmark laid down by the Scriptures? When we approach some of them upon the subject we are met by a knowing sneer and told that politics and religion have long been drifting apart. He held that the principles of the Bible should permeate the whole life of a politician, and that we want no politics which cannot be taken into comparison favorably with the politics of the Scriptures. Has the Lord in history given us any idea as to the principles of God's government? He could not quote the many passages bearing upon the subject, such as "Reader unto Caesar the things that are Caesar's, and Fear God and honor the king." Very briefly the preacher then told how when God had selected Moses when he wanted his great work of deliverance accomplished, and that God had himself chosen the first king for Judah, and that though to-night he urged that this was all very well in regard to the Israelites, but what about other nations, he pointed out that Joseph was selected at the most critical period of Egypt's history, all just men who feared God and did not hesitate to stand firmly upon their convictions. And so the Lord ruled among the kings of men, for righteousness exalteth a nation. Oh, some would say, that is all very well, but righteousness doesn't exalt nations any more. If we say that we presume to know more than God. The Lord has still to do with the governing of nations and has to say what kind of rulers we should have. He would only attempt to state some of these Bible principles and leave it with his hearers to make the applications to individual cases at the coming elections, and if

THE MAN WHO FELL AMONG THIEVES.

The Priest and the Levite pass by, but the Good Samaritan is coming.

Change and increase the tariff, grant more licenses to houses to wreck the lives of our countrymen; anything so long as the end is gained. Like the candidate who after a long speech, explaining his platform concluded by saying: "These, gentlemen, are my principles and sentiments; if they don't please you just let me know and I'll change them." What would you think of such a man? Does he correspond with the Bible qualification? We want good men and true men of whom we have no doubt. The preacher went on to say he had often marvelled at the class of people some people will vote for. Men whom they would be ashamed to see their sons associating with, and men whom they certainly would not set up as an example for their sons to follow. Why men voted for them he could not understand. They send a man who has a likeness to Satan, and expect him to act like an angel. Send the right kind of men. Never mind about policy; that will take care of itself.

Speaking of rotten politicians, the speaker said that he used the word "rotten" advisedly; he preferred it to the word "decayed," which comes through the French, and who ever heard of "decayed" politicians? He made a very amusing and striking illustration, comparing the position of party politicians in the fight to two boys racing having a rotten apple and each persisting in declaring their own to be sound and good, and that the other was rotten, and finally, to prove the thing, each ate his apple. "Score and all." Then both are sick naturally. Why? Because of the rotten apple. So we send rotten politicians as representatives, and they make laws that wreck our homes, ruin our business and make us thoroughly

the life of Joseph and Luther as examples of men with brains and yet religious.

In closing the preacher wished to speak on the subject of bribery, which he compared to the conduct of the trading who for gain unhindered the besieged city to the foe and sacrificed his country's welfare for some personal gain, and urged his hearers to see this God-given privilege of the ballot for the uplifting of the race. That the congregation throughout the coming campaign be careful to preserve the spirit of charity as set forth in 1st Corinth. xiii., and second to others the same liberty of judgment and action as they claimed for themselves. He hoped that among them there would be no repetition of the experience he had known in some places where Christian men required six months to recover the religion they had lost in the bitterness of a political contest.

None But Ayer's at the World's Fair. Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed on exhibit at the World's Fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the World's Fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits.

For cases of nervousness, sleeplessness, weak stomach, indigestion, dyspepsia, try Ayer's Little Nerve Pills. Relief is sure. The only sure medicine for the price in the market.

the youth. It is not always a common sense the highest of one type with the worst of another, but viewing the leaders of the house of commons to-day, he is almost constrained to say: "Like the Roman Catholic schools throughout the country, they are at his peril, plays a moral heroism, and revives a country's hope; the other, tossing aside the whole, violates the privacy of a privileged correspondence and mutilates the message. If that is the project of the public schools, we better be of them and buy the *seminaria*." Here is a consolation, however, that hierarchies repudiate as not akin to a noble character they might imitate, and adopt one not so noble. I hope that he will better serve their purpose. There is a further consolation, that now grown up in the shadow of old tyrannies, we command our adoration, and achieve and maintain a cherished freedom. We are not so, but had all been slaves together, the Canadian and local feudalism aside, there are men in the house of commons in a struggle who command the respect of the country as champions of the liberties of the people. Delays in Marine Cables During the Past Twenty-Four Hours.

A dispatch from San Francisco reports that the British ship, the *Chalmers*, is now 83 days out, and not a few shipping and insurance men believe she has been lost or burned at sea.

Several vessels which left New Castle after the *Chalmers* have arrived, but they say nothing of the overdue ship. The weather has been a little rougher than usual, it is true, but it was not such as to cause a delay of twenty-three days. The anxiety for the *Chalmers* is for greater because she is a fast sailer. She is a new vessel and she was built last year in Glasgow. This is her first voyage. She is a fine steel ship and a sister to the ill-fated *Blairmore*. She is owned by Thompson, Dickie & Co., of Glasgow. She is 265 feet long, 40 feet beam, and 234 feet in depth. She is in command of Captain Versey. The ship *Nairnshire* and *Prince James* are also causing a good deal of alarm. The *Nairnshire* is due out over 130 days for Burnish, and the *Prince James* is out over 100 days for South America. Both have Cardiff coal.

The steamer *Chittagong*, Captain Oliver Davey, of the Oregon-Asiatic line, arrived at the outer wharf from Yokohama early yesterday morning. Her passengers list includes 53 Japanese for Portland and Honolulu and 12 Chinese for Victoria. There were no salmon passengers. The *Chittagong* brought over 2500 tons of freight, 150 tons of which is being discharged here. As the steamer left Yokohama on April 6, she brings no additional news of the plague at Hong Kong or the massacre of the Moplah fanatics at Mandalay. When the *Chittagong* left Yokohama all the cables were out hunting and no catches were reported. The big liner, had an uneventful voyage across, the only vessel slighted being a sailing schooner. After taking on Victoria freight for the *Chittagong* will proceed to Portland and Honolulu, on her return voyage. The *Alkorno*, belonging to the same line, due here about May 20, will probably have the first cargo of the new tea crop.

The Pacific Coast Steamship company's steamer *City of Puebla* leaves for San Francisco this evening with the following Victoria passengers on board: Mrs. J. Curran, Mrs. J. E. Crawford, Miss H. McLellan, Mrs. C. Anderson, C. Paulsen, E. J. Pettit, W. Borile, E. Morse, Mrs. M. E. Moore, Miss F. V. Darrell, Miss E. Welsh, Mrs. J. Taylor and two children, C. A. Robertson, R. Hone, G. L. Cuman.

San Francisco, April 27.—The battleship *Oregon*, recently completed at the Union Iron Works, was placed in the dry dock last night to be scraped preparatory for the final speed test required by the navy department. The *Oregon* will be the most formidable battleship of the American navy when turned over to the government.

H.M.S. *Royal Arthur* will leave tomorrow morning for Vancouver. She will be absent a week or ten days. The *Phaenax* and *Satellite* leave for Behring sea on Friday. The *Phaenax* expects to be about about six months and the *Satellite* two months.

## SPEDY TRIALS COURT.

Prisoners Brought up to Make Election for Trial.

In *Regina vs. Jackson* the accused, who is charged with indecent assault, came before Mrs. Justice Drake and elected to take a speedy trial. The accused is a Portuguese negro, and as the witnesses have to come from the West Coast the trial will not take place for some days yet.

George Bone and Lawrence Mooney, charged with entering a dwelling house and stealing therefrom, also came up for election. Bone pleaded guilty to the charge of larceny, but not of breaking in. They will both be tried before a judge without a jury on Thursday next.

Mrs. Julia Grimes, committed for breaking a window in the Hotel Victoria block, pleaded not guilty. The learned judge dismissed the charge without hearing the evidence, as he held that it was a case for the police court to settle.

The Full Court in *Trask vs. Pollant*, delivered judgment this morning, dismissing the plaintiff's motion for leave to appeal from the judgment of County Court Judge Spinks, notwithstanding the expiration of the time limited by the statute. The case is one respecting the Green Mountain claim. Mr. E. V. McDowell for the motion and Mr. A. J. McColl, Q. C., contra.

Argument is being continued before the full court to-day in *Ward vs. Clark*. This case is likely to take up the time of the court for the greater part of the week.

## NEW SHIPPING POINT.

Messrs. Dunsmuir to Commence Extensive Works at Oyster Bay.

It is learned that Messrs. Dunsmuir are about to undertake extensive works at Oyster bay, in the vicinity of which is located the Alexandria mine, said to be the most valuable coal property they have yet discovered.

All the land fronting on Oyster bay has recently been acquired by them, and they will at once lay out a town-site. Change of men are to be immediately put to work clearing the ground. The Alexandria mine will be thoroughly developed and all the coal now shipped from Departure bay will hereafter be shipped from Oyster bay, which is expected to speedily become a very lively town.

Valuable iron properties are in the immediate vicinity, and it is learned that the Messrs. Dunsmuir propose to erect a smelter and commence working the same in the immediate future.

## WHAT IS IN A NAME?

That of Tupper Has Failed—How Magic Is That of Macdonald?

Winnipeg, April 27.—Hugh J. Macdonald left yesterday for Ottawa. His departure was kept secret, and very few knew of it until after he was gone. The natural inference that was drawn, as soon as the fact that Mr. Macdonald had left was made known, was that he went by invitation of Sir Charles Tupper to be sworn in as minister of the interior.

Hon. Joseph Martin was given a royal welcome home Saturday evening, when thousands of people gathered at the depot to greet him. From there they proceeded to Schalk hall, where a mass meeting was held and speeches made by a dozen leading citizens complimenting Mr. Martin on his heroic defence of the province.

## NORTHERN PACIFIC RAILWAY.

The Receivers Must Render an Account of Their Stewardships.

Winnipeg, Wis., April 27.—Attorney Stetson, of New York, representing the organizing committee, applied to Judge Jenkins this morning for a decree for the immediate foreclosure and sale of the Northern Pacific property. The court said it would insist upon a full statement of the operation of the road under the receivership. The fact that the court took this stand made it necessary for the attorneys to retire for a conference on the subject of an accounting.
